ASPIRE
200

Honeywell has brought a robust, reliable and lightweight satellite communications product to the commercial helicopter industry. The Aspire 200 system, with its High-Data Rate (HDR) software package, mitigates the impact of the rotorblades on the satellite signal to bring high-speed, high-bandwidth capabilities to helicopter operators around the world.

WHO CAN USE IT? HELICOPTER MISSIONS

Search and Rescue

Oil and gas

VIP/executive transport
